E. Reports for Discussion and Possible Action

1. A discussion with the Fire Marshal and Building Official regarding what applicants should expect when seeking new Cannabis operating permits in the City of Oakland.

Greg Minor provided an update and overview regarding the application process explaining that the City would first be issuing applications for all currently non-licensed activities (cultivation, manufacturing, distribution, and delivery services) and would not be issuing applications for dispensaries until later in the year. The application will be relatively simple and the answers people provide should be complete but do not need to be voluminous. The application will require that applicants receive a series of approvals from different departments (and possibly some county departments depending on the type of operation they are planning). For example, the City is working to get some level of approval from the County Environmental Health Department for commercial kitchens that produce edibles.

Fire Marshal Miguel Trujillo and Building Official Tim Low both addressed the Commission regarding what their departments would expect of applicants. The fundamental principle that both departments will apply to new cannabis operators is to treat them the same as any other business wishing to do similar work in Oakland.

The Fire Marshal explained that if a business is storing or distributing chemicals, he would assess the level of danger and make determinations about whether a sprinkler system needs to be installed, what type of fire alarm would be needed, whether it would require 24/7 monitoring, and whether the operation would be considered an H Occupancy and what level of H Occupancy designation under the state fire code would apply.

The Fire Marshal and the Building Official both indicated that for businesses that are already operating, the goal is to keep them operating when possible and to see that they get due process. If the operation has minor changes that need to be made to bring them into compliance, they will likely be given a correction notice with a 30 day deadline. If the corrections are more substantial, they may be required to sign a compliance plan committing to making the corrections in a timely manner. However, if there is an eminent hazard, they would be forced to stop operations until the immediate hazard was addressed.

A question was asked about extraction methods that use open blasting systems (that allow chemicals into the atmosphere) versus closed loop systems. Volatile solvents would need to be on a closed loop system with proper ventilation safeguards. Also, certain considerations would need to be made regarding the total quantity of volatile material regarding sprinkler systems and ventilation. CO2 would be considered non-volatile.

Regarding Cultivation sites, the Building Official noted that service upgrades to the electrical system may be necessary 200 amps to safely handle the electrical loads. He noted that older homes typically have only 30 Amps which is not sufficient and the cause of many fires when people use homes for cultivation. A site that reached a level of "U" Occupancy Rating (as defined in the CA Building Code) would be required to install a sprinkler system. He noted that his office applies the CA Building Code universally to all properties and would do so for Cannabis Operators in the same manner as any other business.

When asked about the timeframe for a building inspection and approval it was explained that it varies depending on the amount of work needed on the building. An inspection can typically be provided within 48 hours of a request and conceivably a building could be ready to go. However, if major upgrades are required the process could take a month or two.

There were several questions from the audience listed with answers below:

Will the City require an H Occupancy of all extraction facilities: No.

Who would regulate cottage producers: The City Administrator through this permit process.

Will Oakland allow distribution to other cities: Oakland will license any operation in Oakland, whether they distribute only in Oakland or elsewhere.. Other jurisdictions may have restrictions that Oakland would not have any influence over.

What will the City be looking for in a security plan: A simple plan that meets basic security protocols as determined by the OPD reviewing it. It is likely that surveillance cameras will be needed on the perimeter of the building and an ability to access the footage 24/7.

Can an edible manufacturer rent space in a commercial kitchen that produces other products: The County Environmental Health Department regulates food production in kitchens and is not supportive of comingling at this point. The City is still working with the county to determine what level of inspection they would require for an edible manufacturer.

How often will the fire department inspect facilities: Annually.

When will the City be accepting applications: as soon as they are released publicly, most likely the end of July/beginning of August.

Will applicants for the prior round of dispensary permits five years ago be given first consideration in the new dispensary process? City Staff have not discussed this but will do so before new dispensary applications are released and report back to the commission.

What type of permit will a delivery service need to obtain: there will be a special delivery service permit that falls under 5.80 and those will be available during the first round of applications (they will not be delayed the way the brick and mortar licenses will be delayed).

Will staff seek input on the draft applications and regulations: Yes, a workshop will be conducted in July before the final draft is released.

2. A discussion and recommendation on amending ordinances 5.80 and 5.81 as passed by the City Council.

Chairperson Hummel submitted a series of amendments to the Equity Program (attached) for the Commission to review that included: expanded eligibility criteria to more police beats, to persons incarcerated for cannabis offenses outside of Oakland and to exempt existing businesses from having to qualify for the program. The amendments also recommended fee reductions or waivers for equity applicants in their first year of operation and reduced the ownership requirement for equity applicants from 50% to 25%. He used expanded police data to determine the additional beats to add to the current ordinance (see attached excel file).

Member Lencho made the following friendly amendments: Add a right of appeal to any applicant who was denied a permit, determine that persons convicted of any crime should not be barred from receiving a permit, and have the newly created Office of Race and Equity review the ordinance and offer amendments as needed.

All of her amendments were accepted.

Public Speakers:

Dorlista Reed questioned why the commission would lower the ownership requirement to 25%, noting it dilutes the purpose of the program.

Maureen Benson also spoke about this and saw problems with the amendments and the impact they would have on the goal of the equity program.

J.P. Morgan spoke and suggested that when investors provide capital for start-up companies, often that causes the original owner's percentage share in the business to go down and therefore this reduction to 25% was something he supported.

Orville Meaux also commented against the reduced ownership percentage and noted that he was confident many equity applicants could attract the capital needed to be successful.

Rob Raich spoke in favor of the amendments and suggested expanding the eligibility requirements even further than just to Californians, suggesting anyone who has ever been incarcerated for a cannabis offense should be eligible.

The recommended amendments passed unanimously and will be forwarded to the City Council. (final recommendation attached).

F. Announcements

G. Adjournment

The meeting adjourned at 9:00pm

June 20, 2016

To: The Oakland City Council
From: Matt Hummel, Chairperson, Cannabis Regulatory Commission
Re: Proposed Amendments to Improve Medical Cannabis Equity Permit Program

City Council President Gibson-McElhaney and Honorable Members of the Oakland City Council:

In an effort to refine the recently passed ordinances (5.80 and 5.81) designed to regulate Cannabis cultivation, production, and sales in the City of Oakland, the Cannabis Regulatory Commission discussed and unanimously approved the below recommended amendments at its June meeting.

Proposed Amendments to 5.80 and 5.81

Expanded Eligibility Criteria

1. Expand to include Oakland residents incarcerated for cannabis offenses anywhere in California, in addition to those arising out of Oakland.
2. Expand to include spouses and children of Oakland residents incarcerated for cannabis offenses anywhere in California.
3. Expand to include individuals incarcerated for cannabis offenses at any point, not just those incarcerated in the last 10 years.
4. Expand included police beats based on a 5 year historical data set, instead of just one year. The broader data set supports inclusion of the following beats as disproportionately impacted by cannabis enforcement: 2x, 2y, 6x, 7x, 19x, 20x, 21y, 23x, 26y, 27x, 27y, 29x, 30x, 30y, 31y, 31z, 33x, 34x, 35x.
5. Modify the language in Item 4 of each Ordinance's Equity Requirement to state that ANY prior conviction shall not be a bar to equity ownership (or employment).

Existing Businesses

1. Clarify that businesses that can prove existing operation in Oakland have a clear path to be issued permits if they meet operating requirements.
2. Add a right to appeal a permit application denial.

Create Economic Benefits for Equity Permits

1. Expedited consideration for the equity permit applicants.
2. Defer first year permit fee, allow for quarterly payment permit fee rather than upfront lump sum.
3. Waive or reduce the application fee.
4. Temporary partial relief from the 5% cannabis business tax rate.
5. Lower the ownership requirement for Equity qualifying individuals from 50% to 25% ownership interest in the applicant entity.

Cottage Licenses

1. The City of Oakland should take a formal position in favor of AB 2516.
2. Implement permits for cottage cultivation if AB 2516 passes.
3. Include a provision in 5.81 that allows for non-volatile manufacturing of cannabis infused edibles in existing commercial kitchens in commercially zoned areas.
