

EMBARCADERO BRIDGE SEISMIC SAFETY REPLACEMENT PROJECT

Lake Merritt Channel / Oakland Estuary

Rendering of the future Embarcadero Bridge, landscaping, and public restroom from the west. Left, view from Jack London Aquatic Center. Right, view from above roadway.

About the Project

Oakland's Embarcadero Bridge over Lake Merritt Channel was selected to receive structural improvements in order to increase its earthquake resistance as part of the California Department of Transportation (Caltrans) bridge inspection program.

CONSTRUCTION SCHEDULE June 2015 – June 2017

Project Details

- » The new bridge will be wider (59 feet versus the current 37 feet). In addition to 12-foot vehicle travel lanes in each direction, it will provide a 6-foot bike lane/shoulder in each direction, a 5-foot wide sidewalk on the north side, and a 12-foot wide multi-use path on the Estuary side. This expansion will allow for continuity of pedestrian and bicycle access along the waterfront and Bay Trail.
- » The project will also have new street lighting, landscaping, new restroom facilities, and planted rainwater treatment areas at both ends to improve water quality.
- » The project complements the City's Measure DD vision of improving water quality and pedestrian, bike and recreational access to Lake Merritt, the Lake Merritt Channel, and the Estuary.
- » A new traffic signal at 5th Avenue, as part of Embarcadero Roadway Improvements, will greatly improve traffic flow in the area.

The Embarcadero Bridge in Oakland is being replaced for seismic safety reasons. The bridge will be closed from June 2015 to June 2017.

Please see www.oaklandnet.com/embarcadero for translated information.

El puente Embarcadero en Oakland será reemplazado por motivos de seguridad.

El puente estará cerrado a partir de junio del 2015 hasta junio del 2017.

Funding

The total project cost (including design and construction) is nearly \$23 million. Of the total, the Federal Highway Bridge Program represents \$20 million, the State Seismic Safety Matching Funds program represents \$140,000, State Proposition 1B (Infrastructure Bond) funds represent \$1.7 million, and Alameda County Measure B Transportation Sales Tax funds represent \$950,000.

Local Traffic Detour

During construction, the Embarcadero Bridge (between Estuary Park and 5th Avenue) will be closed. Local traffic will be diverted as shown on the Traffic Detour plan below.
